### Project Description

The Clermont County Transportation Improvement District, in cooperation with the City of Milford, the Clermont County Engineer's Office, Miami Township, Union Township, and the Ohio Department of Transportation, is beginning to study the US 50/SR 131 and Milford Parkway/Chamber Drive intersections and the surrounding areas for possible economic, environmental, and transportation improvements.

As part of this project, a market analysis study, environmental overview, and traffic analysis will be performed for the study area prior to developing transportation improvement recommendations.

### Project Interest

What is your interest in the US 50/SR 131 & Milford Parkway/Chamber Drive Improvements project? (Please check all that apply).

\_\_\_\_\_ Residence or private property owner in the study area.

\_\_\_\_\_ Business owner in the study area.

\_\_\_\_\_ Interested in business or other development opportunities in the study area.

\_\_\_\_\_ Work/shop/dine in the study area.

\_\_\_\_\_ Commute through the study area.

\_\_\_\_\_ Other \_\_\_\_\_

### Project Goals

The following initial project goals have been established for the US 50/SR 131 and Milford Parkway/Chamber Drive Improvements project:

- Evaluate the economic conditions of the area, identify areas of potential growth, and assist in the determination of anticipated traffic volumes in the area.
- Identify environmental features and potential mitigation/green infrastructure opportunities.
- Improve the study area access, safety, and travel efficiency for both current traffic volumes and potential growth in the study area.
- Develop a transportation plan for future community, economic, and redevelopment opportunities.

Do we need to include other goals or are there any goals that we missed? \_\_\_\_\_

What would you like to see for the study area in the future? \_\_\_\_\_

\_\_\_\_\_

## Clermont County Transportation Improvement District

### Economic Development

What are your concerns relative to the current economic conditions of the study area? \_\_\_\_\_

\_\_\_\_\_

What future potential growth/land uses would you expect/like to see within the study area? \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

### Transportation Needs

What traffic or safety problems do you see or experience in the project study area? (Please check all that apply).

\_\_\_\_\_ Congestion. Excessive travel time and/or safety concerns.

\_\_\_\_\_ Periods of the day where you experience more problems in the area.

\_\_\_\_\_ Dangerous intersections, driveways, etc.

\_\_\_\_\_ Traffic signal location/timing issues.

\_\_\_\_\_ Confusing/difficult access to businesses.

\_\_\_\_\_ Inadequate turn lanes.

\_\_\_\_\_ Other \_\_\_\_\_

Other needs or problems you think are important for us to know about. \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

### Other comments

Please provide below any additional comments you have about the project. \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

### Possible Improvements

What do you think should be priority improvements with the US 50/SR 131 and Milford Parkway/Chamber Drive project? (Please check all that apply).

\_\_\_\_\_ Additional lanes on particular roadways or at various intersections.

\_\_\_\_\_ Access management (driveway restrictions/limitations).

\_\_\_\_\_ Signal modifications/improvements or turn lane improvements.

\_\_\_\_\_ Improvements for pedestrian/bicycle traffic.

\_\_\_\_\_ Preservation of a corridor for future rail transit.

What other improvements would you like to see? \_\_\_\_\_

\_\_\_\_\_

### Environmental and Community Resources

As this project develops, the project team will evaluate potential impacts to environmental and community resources.

What features in the study area do you want to make us aware of? \_\_\_\_\_

\_\_\_\_\_

Is there anything that we need to avoid? \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

What environmental or community resources/issues are most important to you? \_\_\_\_\_
